

## Walk Statistics for 2021 AGM

This report covers the period June 2020 to June 2021. Due to Covid, the group walks only took place September – December 2020 and April to June 2021 (a 7 month period), so the statistics are less meaningful than usual.

Normally we would compare figures to previous years, but due to a computer crash, quite a lot of data has been lost. This includes the period July 2019 to June 2020 and all the data for Thursday medium walks between September – December 2020.

It is also worth noting that during the pandemic period there were no Tuesday/Wednesday medium walks.

It is difficult to compare figures to previous years in view of the above, but it would appear that the numbers on strollers, long walks and evening walks have gone down, but short have gone up a lot. Medium seems pretty stable.

A table of the average number of walkers is included below plus details of the minimum and maximum numbers on walks for the 7 month period in question.

It is worth mentioning however that we do need more walk leaders to volunteer as, increasingly, the walks are being led by the same few people.

Walk Lengths	Average Number of Walkers & Periods Covered					Min/Max Walk Numbers	
	2018	2019 (July – Dec 2019 lost, so this covers Jan-June 2019)	Jan- June 2020 (Data lost)	July – Dec 2020 (Actual y Sept – Dec 2020)	Jan – June 2021 (Actually April – June 2021)	Minimum number of walkers July 2020 to June 2021	Maximum number of walkers July 2020 to June 2021
Stroller Friday	17.4	14.2		N/A	8.8	3	15
Short Midweek	13.7	20		13.5	14.8	7	22
Short weekend	9.5	14.8		13.7	12.2	4	22
Medium Tues/Wed	12.3	9.1		N/A	N/A	N/A	N/A
Medium Thursday	9.5	8.7		Data Lost	10.7	9	13
Medium Weekend	10	9.1		7.8	10.4	4	16
Long midweek	9.3	9.7		7.6	8	3	14
Long weekend	13.1	12.2		8	8.4	5	11
Evening Thursday	11.4	7.1		No data	7.7	3	12
NY Day	42	42		N/A	N/A	N/A	N/A
